ACADEMIC PROJECTS

- ❖ **Ecommerce Store**
Build using react.js, context API, react router Dom, tailwind CSS and local storage. User can create product and add to cart, and the products will remain in the cart even after reloading the page.
- ❖ **Pinterest Clone**
Build using node.js, express.js, EJS, mongoose ODM, mongo DB, B-crypt, JWT, multer.js (disk storage). User can create account (login & signup), authentication, can save post, create post, like the post, save a post, follow someone, view profile, check details of the post. It is a full-fledged pinterest clone.
- ❖ **Domidex Design**
Build on top of react.js, tailwind CSS, GSAP and Scroll Trigger. It is a great practice responsive UI clone of an award winning website on awwwards.com.
- ❖ **AltCo Protein**
UI clone of an Indian Dairy product manufacturing industry named "AltCo". It is built with react.js, tailwind CSS, GSAP, Scroll Trigger as well as completely responsive.
- ❖ **News Application**
UI as well as fully functional website designed by myself. It fetches news from a third party API. It is a JavaScript, tailwind CSS and NEWS API based project. It is responsive as well.
- ❖ **Ochi Design**
UI clone of an award winning website. Build with HTML, tailwind CSS, JavaScript, GSAP and Scroll Trigger. It is fully responsive. Locomotive JS (smooth scrolling effect) is also introduced in this project.
- ❖ **Spotify Desktop Clone**
Fully-functional clone of Spotify (a music player) and completely responsive (user can even interact on the mobile). Build on top of JavaScript, tailwind CSS, HTML.
- ❖ **Webflow Portfolio Template**
Completely responsive Webflow template clone, build with HTML, CSS and JavaScript
