- Next JS (Basic), socket.IO (Basic), ImageKit (Basic)

EDUCATION

- Bachelor of Science: Information Technology   (Currently Studying)
- Intermediate: Pre-Medical   (Passed with 'A' grade)
- Matriculation: Science   (Passed with 'A+' grade)

ACADEMIC PROJECTS

- ❖ **YC-Directory:**
  Build using express.js, mongodb, react.js, mongoose ODM, REST API, GraphQL API, redux/toolkit, react router dom, React Hook Form, zod validation, cloudinary, axios, React Query (Tanstack), tailwind CSS, material tailwind and SHADCN UI. On the top, Clerk is integrated for Effective Authentication. It is actually a blog application, where user can share his thoughts.

- ❖ **Pinterest:**
  Build using express.js, mongodb, react.js, mongoose ODM, REST API, GraphQL API, redux/toolkit, react router dom, React Hook Form, zod validation, cloudinary, axios, React Query (Tanstack), tailwind CSS, material tailwind and SHADCN UI. For effective Authentication, Clerk is also integrated. It is almost ready to deploy.

- ❖ **WhatsApp Clone:**
  Build using express.js, mongodb, react.js, mongoose ODM, Socket IO, REST API, GraphQL API, redux/toolkit, react router dom, React Hook Form, zod validation, cloudinary, axios, React Query (Tanstack), tailwind CSS, material tailwind and SHADCN UI.

- ❖ **Hirrd Job Portal:**
  Build using express.js, mongodb, react.js, mongoose ODM, REST API, GraphQL API, redux/toolkit, react router dom, React Hook Form, zod validation, cloudinary, axios, tailwind CSS and SHADCN UI.

- ❖ **Instagram MERN clone:**
  Build using node.js, express.js, mongodb, react.js, mongoose ODM, redux/toolkit, react router Dom, cloudinary, axios, tailwind CSS. It is a basic clone of instagram, and is my first MERN stack project.

- ❖ **Spotify Clone:**
  Fully-functional clone of Spotify (a music player) and completely responsive (user can even interact on the mobile). Build on top of JavaScript, tailwind CSS, HTML.

- ❖ **Zentry Gaming:**
  UI clone of an award winning website, named Zentry. Build with tailwind CSS, React JS, GSAP and Scroll Trigger. It is fully responsive.

- ❖ **Brainwave:**
  UI clone of an award winning website. Build with tailwind CSS, React JS, GSAP and Scroll Trigger. It is fully responsive.

- ❖ **And Many Other Projects**
